Welcome to H&H Fur Dressing, Inc.

Thank you for choosing H&H Fur Dressing, Inc. to be your partner in business.

In 2017-2018 we have experienced a significant growth in both the tannery and the S&S Fleshing Machine sales. This tells us what we are doing for you is right on track with our goal, and that is to provide you with a high quality product and great customer service.

This year H&H Fur Dressing, Inc. will be adding a product line to our tannery service. This product line is full of quality products that we manufacture right here at our headquarters in Reed City, MI. Over the past decade we have been blending and using these products in our own facilities and have been asked by many taxidermists to "just sell me a little" and after much thought, we realized that there are a lot of DIY studios out there that could benefit from our products. After all, who better to blend, test and understand each component within a complex component than the tannery itself ?

It all boils down to this: When you need a tannery you can trust and will provide you with a high quality product as well as a great customer service team, you need H&H Fur Dressing, Inc. When you need a fleshing machine that has proven itself over and over again and comes with a limited lifetime warranty, you need H&H Fur Dressing, Inc./True-Cut Tool. When you need tanning products manufactured, tested and used by a tannery, you need H&H Fur Dressing, Inc.

Thank you for your business, we appreciate it !

Sales & Service

BLADE SHARPENING

We offer some of the best blade grinding on the planet. In this part of the business, we have grown exponentially. What used to be a small extension is now a full time forty hour per week operation.

BLADE SALES

If you're in need of new blades, you've come to the right place. Our blades are made of high carbon steel with alloying elements. This means they'll hold an edge longer and you won't need to spend more money replacing blades every few months.

FLESHING MACHINE SALES

Hands down, we have the best fleshing machine money can buy. In our tannery, we use these machines ten hours a day, five days per week. They never break down, period! Our top notch shavers have shaved everything from ermines to elephants on these machines. The guards are very easy to adjust and changing a blade is a breeze. New and in full swing is our 10" Easy Flesher. This machine is a scaled down version of our 12" Professional Series. For those of you that may be intimidated by the larger machine or just plain money conscious, this is the machine for you. Whether it's the 12" Professional Series or the 10" Easy Flesher, both are hand crafted by our skilled tradesmen. The machines are manufactured right here in our Michigan facility. We hold tight tolerances on the machining end of the process so you won't have premature wear on the internal components. Each machine is inspected and given a number before it leaves the facility.

FLESHING MACHINE REPAIR

In this department we receive those old worn out machines that you just don't want to part with. However, if the one you're using just isn't cutting it anymore, send it to us for an inspection and we'll give you a call with an estimate for repairs. We've repaired the Eager Beaver, Raw Hide, Québec and all of the Van Dyke models. Most of the time the repair work is much less than you would expect. Don't fight with it another year.

For more information on any of our products and services, please call 231-832-7002 or visit our website at: www.fleshingmachine.com

WET TAN

We have an exceptional wet tan. Very stretchy, clean and has very little shrinkage when drying on the form. It will hold its shape and will not pull away from the eyes and detail you gave the form. This saves you time and frustration when finishing the mount. Try one and see for yourself how nice it is to work with. Note: Be sure to use a quality glue and always make sure you do a second day work over on your mounts.

DRY TAN

Our dry tan is very easy to use and rehydrates quickly. There is no reason to have to leave it in the rehydration bath for any longer than 20 minutes. Cool water, a handful of salt per two (2) capes in a sink or bucket and that's it. Just like our wet tan, it too has very little shrinkage and is very stretchy. Look for the complete instructions on rehydration in the back of this price list or visit our website at: www.furdressing.com

TEXAS TANNING

For those clients that live in Texas and its bordering states, we accept both dry salted skins and green skins. At our Texas location we only provide a wet tan. Any skins that you prefer the dry tan on will be shipped to our Michigan facility. In peak seasons, we have a truck going to and from Texas every thirty days.

FLESHING AND SALTING SERVICE

With this service you can relax and just keep producing taxidermy. After all, that's why you got into this right? With our team of experienced skinners/fleshers you can sleep well at night knowing your frozen, green skins are being taken care of. We'll do the messy work, you get the glory. When your frozen skins arrive at H&H Fur Dressing, Inc. we lock that date in for you so you won't have to wait another 30, 45 or even 60 days longer to get your skins back.

For more details call, 231-832-7002 in Michigan or 210-695-8596 in Texas.

STORING TANNED SKINS

If you are not going to mount your skins within 6 months after receiving them from "any" tannery, we recommend rehydrating, prepping, measuring, label then bag and freeze.

DISTRIBUTION HUBS AND FACILITIES

We have three locations to help you out with freight cost.

Our Wisconsin hub acts as a fleshing and salting point as well as a hub for our truck to pick up any skin whether full service was performed or the skins arrived already salt dried. Our Texas facility serves as a fleshing and salting, wet tanning and distribution location. Our Michigan facility is our headquarters.

MICHIGAN

At our Reed City location we receive hundreds of skins each day during the fall and winter months. Here we offer a synthetic tan. You have your choice of either a wet tan or dry tan. We also offer fleshing and salting of your frozen skins. Located on the grounds is our tooling company True-Cut Tool, Inc. We manufacture the S&S Fleshing Machine, sharpen your dull blades, sell new blades and rebuild worn out fleshing machines. 5704 220th Ave, Reed City, MI 49677 | Phone: 231.832.7002

TEXAS

At our Helotes facility we receive frozen skins for fleshing, salting and wet tanning. We offer a pickup and delivery service to our Texas clients. Also, we are a receiving facility for overseas shipments and distributing skins to and from our Michigan facility. Every thirty days our truck makes its run down to Texas picking up loads of skins for dry tanning in Reed City.

20145 Bandera Rd #3, Helotes, TX 78023 | Phone: 210.695.8596

WISCONSIN

At our Edgar location we receive frozen and dry salted skins. Speedy is the preferred carrier to get your skins to our Edgar location. After your skins have been fleshed, salted and dried. They will be boxed and ready for transit in one of our trucks to our Michigan facility for processing. During the fall and winter months this will be every thirty days starting in October.

MISCELLANEOUS INFO

Due to the many variables of Mother Nature and Wildlife, including health of the animal, weather, prime conditions of the skin or improper handling of some furs, **ALL TANNING IS DONE AT OWNER'S RISK.** H&H Wildlife Design and Fur Dressing, Inc., its owners and/or employees, will not be held responsible for any loss while in transit or any damage of skins or other items due to theft, fire, vandalism, mechanical, flood or other circumstances or acts of God.

Tanning is accepted under these conditions only.

For each shipment enclose a packing list detailing the following:

- **Company Name**
- **Full address, telephone number and email address if available**
- **Taxidermist License Number (if required in your state)**
- **Customer Number if you are an existing customer, if not, a number will be assigned to you.**
- **Complete inventory of skins sent**
- **If shipping frozen skins you must clearly label each box FROZEN or PERISHABLE.**
We assume no liability for slipping or rotting skins.
- **If you want a Wet Tan be sure to specify otherwise your skin will be processed as a dry tan.**

Once your shipment is received and checked in, you'll be sent an acknowledgment of receipt of your skins. If there are any discrepancies, please notify us immediately.

SHIPPING/INSURANCE

We ship through various commercial carriers as well as our own trucks. The responsibility for the shipment passes to you, the buyer, as soon as it is loaded on a truck. We do not add insurance to any shipment. If you would like insurance on your shipment you must request it each time. You are responsible for stating the value you want placed on each shipment along with the cost of the insurance. This added cost must be paid for prior to shipping. If a claim arises and you purchased shipping insurance you will need to deal directly with the insurance carrier on the claim. Be sure to inform your customers of this policy prior to sending in their skins.

We assume no responsibility for frozen items during transit, whether raw or tanned, while in our possession

SERVICE CHARGES

Bone Removal Charges: \$25 per foot/tail. \$75 for skull removal. \$100.00 minimum charge for carcass removal.

50% extra charge on inadequately prepared skins.

50% extra charge for rush services.

15% Charge of the total cost for skins that are deemed rejected after they have gone through the wetting back and/or pickling process.

\$15.00 extra charge for excessively long deer capes. (ie. Pedestal mount)

15% extra charge for all other species with exceptionally long capes.

Hides with heads will be charged as a life size minus the cost of the legs.

Excessive grooming—ie. Manure, burrs, etc. You will be contacted and given a cost. Note: Some species of sheep will not be groomed.

Return shipping insurance is not added unless specifically requested for and paid for by customer.

All African shipments are subject to a \$50.00 USDA handling fee plus a \$25.00 charge for boiling per skull for swine and primates.

There will be a \$10.00 charge for each additional contaminated skull and a \$10.00 crate disposal fee.

REHYDRATION INSTRUCTIONS

When relaxing skins, add 4 oz. of salt, or one handful per gallon of water. This will reduce the risk of acid swell.

Capes and Small Mammals - Submerge head in cool water for 20 minutes; Submerge remainder of skin for an additional 10 minutes. Remove skins, drain well, cover with plastic and let them sit overnight at room temperature.

Life Size Skins - Submerge head and feet in water for 20 minutes and then submerge remaining skin for an additional 10 minutes. Remove skins, drain well, cover with plastic and let them sit overnight at room temperature.

Bear Rugs -Submerge head and feet in water for 20 minutes. Pull out and sponge the remainder of the skins, cover with plastic and sweat overnight.

WITH WET TANNING - Thaw at room temperature.
